Basis for Costs

Districts are responsible for sharing in the cost of elections in which they have a race or issue on the ballot (RCW 29A.04.140). The cost sharing model outlined by State rule includes a minimum \$50 fee as well as a portion of all costs associated with the election. Each district's portion is based on the number of registered voters in the district and a cost per voter rate for the election. The cost per voter rate for the election is based on total cost to conduct the election, the number of districts and the number of voters in each district.

Payment Process

Districts that have an account with the Snohomish County Treasurer for tax collection will have their portion of election costs drawn automatically from this account approximately 30 days after the election. There is no need for districts receiving a statement to submit payment. If insufficient funds exist with the Treasurer, a separate invoice with remittance instructions will be sent to the district.
