Mayor Joe Beavers

City Council

Dear Sirs

I would like to reinstate my letter of interest in the vacant council position, formerly held by Mr. Rick Merritt.

To restate my qualifications, I have been a volunteer member of Fire District 26 for 12 years, currently holding the position of Firefighter/EMT. I am a CPR instructor, and am on the Rope Rescue team. I feel that my involvement with the Fire Department gives me a very good knowledge of what is going on in our community.

In addition, I am a member of our local Red Hat Society, which is very active in the community, currently organizing the Memorial Day picnic.

I have also volunteered at the Sky Valley Food Bank for about 20 years. Even though it is located in Monroe, we serve almost the whole Sky Valley.

I currently reside at 708 Verlinde Drive, in Gold Bar, and have for 9 years. I feel I have the time and interest to devote to doing a good job for the City of Gold Bar.

I appreciate your consideration.

Sincerely

A handwritten signature in black ink that reads "Davi Martin". The signature is written in a cursive, flowing style.

Davi Martin

(Florence D. Martin)

Subject: questions

OK, here goes, as I promised you:

1: What strengths would you bring to the council?

I am a listener, I like to hear all sides of an issue, or all facts before making a decision, or having an opinion. I am really good at seeing the value in several different sides to an issue. I happen to love living in Gold Bar, and have an affinity for small towns. They certainly have their challenges, but also have a multitude of strengths that are sadly missing in the anonymity of a large town. I enjoy history, and feel strongly that an area should stay true to its roots and history, I am no fan of cookie cutter, plain vanilla towns.

2: What city do you see as a model for Gold Bar?

I am not deeply familiar with the structure of many of our smaller cities, but I lived in Monroe for many years, and have watched its politics. Monroe certainly has problems, but does a lot of things right. However, the bottom line is, I don't know which city could be used as a model.

3: Under current conditions, Gold Bar will exhaust its reserves during your term. How would you go about determining what to do to prevent this?

Again, I am not familiar enough with the day to day running of Gold Bar to have any definitive opinions or solutions to this. There may be possible income sources that haven't been explored, and possibly measures to cut costs that could be implemented. This question can be better answered after a lot of study, many questions, and much research.

4: What positive contributions have you made to the local community?

I have been a volunteer with Fire District 26 since 1998, responding to calls with the district, participating in parades, National Night Out, and other activities where the Fire Department supports the community. I am a CPR instructor, and have taught many classes to locals. I am a member of the local Red Hat group, which is very active in projects. I have volunteered with the Sky Valley Food Bank for over 20 years, which, even though it is located in Monroe, traditionally serves citizens of the upper Skykomish valley. Plus, as a proud resident of Gold Bar, my positive attitude and support of the community is a one person PR team.

So, there you go Joe, hope it is adequate.

6/30/2010

See you later

Joe

I understand that Davi has applied to fill a vacancy with the City council. This E mail is in support of her filling that position. Davi has been a long standing member of the community as well as serving as a volunteer firefighter for our District. Davi has always shown her commitment to serve the community and work towards improvement on all levels. It is my feeling that she will provide meaningful input and cast her votes for the true benefit of the city and its citizens. Please give her serious consideration to fill this important role for the community.

Eric Andrews
Fire Chief
Snohomish County Fire District # 26
